Welcome to Washington Nursing Center

Washington Nursing Center is a privately-owned, skilled nursing facility. Our healthcare team works daily to meet and exceed the needs of each resident while maintaining their privacy, dignity and integrity. We offer the full spectrum of care including skilled rehabilitation, long-term care and respite stays. Our licensed, professional staff provides 24-hour medical care and support services to our residents.

Long-Term Care

Washington Nursing Center strives to do this by utilizing a holistic approach to care by meeting the needs of our residents medically, socially and mentally. For some residents, we are able to restore them to a level of function which enables them to return home. For others, we are honored they chose to make Washington Nursing Center their home.

At Washington Nursing Center we provide our long-term care residents with comfortable living in a warm, secure and caring environment. We realize we have the privilege of working in their home each day. A variety of life enrichment opportunities and activities are provided to ensure our residents remain active and engaged members of the community. Just like at home, we encourage friends, family members and pets to visit anytime!

Rehab Services

Washington Nursing Center offers a full-time, in-house therapy and rehabilitation team. We provide Physical, Respiratory, Occupational and Speech Therapy. Our goal is to assist each individual to achieve their highest possible level of function and independence.

- + Private & semi-private rooms available
- + Private entrance to Rehab Unit
- + Fully-equipped exercise and rehabilitation gym
- + Separate dining room for rehabilitation residents

Respiratory Therapy

Our Respiratory Therapy department is a full-service department with equipment and staff available for any potential admission. If you or your loved one have a diagnosis of COPD, emphysema, pneumonia or any other respiratory/breathing difficulties, we have a skilled and trained respiratory therapy staff who are solely focused and responsible to care for your respiratory and breathing needs.
